**Subject:** RE: News from Charest family

Dear Family & Friends,

Adrienne and I would like to share the good news with you. Last week I flew up to Pemba, the little city on the northern coast of Mozambique, to look for some land to build our future missions house. The superintendent of the province, Pastor Buanaheri, showed me a beautiful piece of ground right in between the airport and the ocean. So within the short time that I was there we were able to purchase a plot of land that is just smaller than an acre. This will give us plenty of room for our house, storage, and then in the future we hope to build a children's ministry resource/training center. We thank you for praying for us as we continue to work through the paperwork involved in order to begin building. We will keep you posted on the development.

Thank you for your continued support and prayers! Together we are making a difference in the lives of Mozambique's children!

Blessings,  
Joel
